Quite a large delegation of Mohave county people will attend the Fair, leaving here tomorrow and remaining until the last stunt has been pulled off in the Capital City. All the school teachers are to go and several of the county officers will also be on hand to attend the meeting of the various state boards.

J. W. Copeland, of Dayton, Ohio, purchased a bottle of Chamberlain's Cough Remedy for his boy who had a cold, and before the bottle was all used the boy's cold was gone. Is that not better than to pay a five dollar doctor's bill? For sale by all dealers.

George Thompson, who has been farming on the Big Sandy, is in town to get a line on the entry of a parcel of land that he has been reclaiming. He says that the Sandy Valley is one of the richest sections of God's green earth, the product of staples per acre being too wonderful to relate. Sweet potatoes weighing twenty-four pounds each are not uncommon on the ranches there. Corn twelve feet or more in height and having five well developed ears are the usual thing, while sorgham grows so large that if the plants are thinned out a crosscut saw will be necessary to fell them. Pumpkins grow so fast and so large that they crowd each other out of the fields. From six to eight crops of alfalfa are grown yearly on these lands, and the hay is fed to hogs and cattle. It is probable that artesian water may be obtained in this valley and that the bench lands will later be brought under cultivation.

This week Judge Krook cited James W. Haas, of Mineral Park, to appear and show cause why he should not be punished for contempt of court in disobeying an order of the court. Some time ago an injunction restraining Haas from closing a wagon road leading from the town of Mineral Park to the Keystone mine was made permanent, and Haas was required to open the roadway to the use of the people who formerly had the free use of the thoroughfare. Recently Haas again closed the roadway and complaint was made to the court. Proof was ample and the court gave Haas twenty-four hours in which to open the road, with an alternative of punishment should he fail to do so.

The sheriff's office has been busy this week working out clues to the burglary of Lovin and Withers store. Arrests were made of a number of suspects, but one by one they have been discharged. In taking in a suspect the officers arrested a man going under the name of J. C. Ray, who is also known as "The Overall Kid," who is wanted by the U. S. officers of Texas on an indictment in that state. The Texas officers will be here to take the man to El Paso, where he will have his trial. The Kid is said to be one of the bad ones, being one of a gang of sure thing men that have been infesting the coast.

A number of the mining operators of this county will leave tomorrow for Phoenix, where they will meet with the state tax board.

H. M. Beatty, Little Rock, Ark., says: "For the past two years I suffered with kidney trouble, and severe pains across my back and over my hips that almost meant death to me at times. I used several well known kidney remedies, but got no relief until I used Foley Kidney Pills. These I can truthfully say made me a sound and well man." H. H. Watkins, Druggist.

J. D. Jordan Dead.

The many friends of J. D. Jordan will be pained to learn of his death, which occurred in Los Angeles last Monday evening. Mr. Jordan was taken to Los Angeles about a month ago suffering with stomach trouble. At the hospital it was ascertained to be cancer and in his weakened condition it was not considered that an operation would be successful. Mr. Jordan came to this county more than ten years ago and engaged actively in mining, being successful in making a number of important sales of mining property. He was wedded to Miss Nora Ealy about seven years ago, and the widow and one child survives him. He also leaves two sisters, who were with him at the time of his death. The remains were taken to the old home in Maine for interment.

John Penberthy, who has been quite ill at his residence on South Front street the past month, was operated on by Drs. Bucher, Whiteside and Cowie last Tuesday and a large tumor removed from his bladder. The operation was an entire success, the patient now being on the high road to complete recovery. The operation is one of the most difficult and dangerous known to the medical profession, because of its many attendant complications, and it is seldom that local surgeons undertake the removal of diseased bladder tissue or tumorous growths.

H. L. Stewart departed Thursday night to Los Angeles on his way to Florida, where he will look after lands at St. Johns, in which he is largely interested. Before leaving here he arranged for the erection of the mill at Music Mountain. C. D. Richardson being engaged to oversee the work. The men are to leave at once for the mines and will rush work to completion. Mr. Stewart also arranged for the continuance of work on the mines, J. T. Wallace continuing his contract for the development of the Mohawk vein. Splendid ore was recently encountered in this vein.

Mrs. Maude Emery, daughter of Mrs. J. P. Gideon, came in from Colton last Thursday evening and will remain some time.

W. A. Rimes, Ruston, La., writes: "Sometime ago I took Foley Kidney Pills, and must confess the results have been marvelous, for I feel like a new man. I suffered from kidney and bladder troubles, but Foley Kidney Pills fixed me. I will recommend them to all sufferers from kidney trouble." H. H. Watkins, Druggist.

Our attention has been called to the marriage licenses issued in Los Angeles yesterday, among which is one to Fred Lydy and Miss Cole. Fred gave the lady the slip on some pretext, and hid himself away to the Angel City, and there met Miss Cole, presumably by appointment, and by this time the couple have been united in hymenial bonds. Mr. Lydy is the gentlemanly shipping clerk at the Santa Fe depot and Miss Cole has been a teacher in the school at Truxton Canyon.
